COMPANY OVERVIEW

OFFICE PHILOSOPHY

We think it's fun to solve hard problems. And we look for people who have the resourcefulness, creativity and perseverance needed to solve the big, hard problems you face in your business. The people on the ZAB team enjoy building things - building great systems for our clients, building great software for our industry and building a great company.

ABOUT US

ZAB was founded in 2008 to develop, sell and implement solutions to business organizations for facing challenges of the developing world. Our innovations enable more customers nationwide to work together more efficiently and use business insight more effectively. ZAB helps organizations of all sizes and industries overcome the complexities that plague our businesses, our jobs, and our lives.

OUR MISSION

We want to help our customers become world class businesses and compete on an international level. It is ZAB's mission to provide ethically, best-in-class ERP and Healthcare one stop IT, Solutions and Services that have the potential to deliver profitable growth to our vendors- partners-clients and ourselves and thus „Growing Together“ and forging long-term relationships.

VISSION AND VALUES

Achieve increased operational effectiveness and efficiencies in business processes via an ERP solution. ZAB's key goal is to serve globally and regionally. We support the vision of digital Bangladesh and to be the best one stop IT business solutions in the Country. ZAB will attain this position by transforming the IT business care experience through a culture of caring, quality service, innovation and excellence.

BENIFITS

With ZAB System, you get the benefit of using a quality solution that provides you better control with less cost and help you grow your business with much ease. Technological changes will have less of an impact on ZAB than most other business software by virtue of the fact that our software is browser-based and platform independent.

WHAT WE OFFER

TECHNOLOGY

The internet revolution is the cause as well as the response to converging technologies and business trends. There is little doubt that this evolution will forever change the way we work and the way we shop. With this in mind most businesses realize that they must migrate some or all of their business to the internet.

User Interface

- ZAB is developed on JAVA platform. The front end is designed by runtime generation of DHTM and java servlet with a flavor of the state of the art AJAX technology.
- With ZAB system the entire process associated with traditional LAN based applications is maintained; that is the data remains on the customers' server.
- ZAB uses browser technology as a "thin client" providing secure access to your business processes over the IP protocol and truly makes anywhere, anytime, secure accounting a reality.
- Tools based proprietary system makes it highly customizable without making any changes in the core engine.

Server Operating System

- Windows XP SP3, Vista, 7 SP1, 8.1, 10
- Windows Server 2003 R2, 2008, 2008 R2, 2012, 2012 R2
- MAC OS X, Linux, Obantu

Database

- Microsoft SQL Server-2008 R2, 2012, 2014
- My SQL-5.0 or heigher
- Oracle Database-10g, 11g

Reporting

- Crystal Report
- Report Server: Apache, IIS
