

Forms/Application Processing

One stop shop for all application/forms processing needs

Devnet has processed a wide variety of client forms for years. Our expertise has allowed us to develop a highly-efficient process with which data can be captured more accurately, customer accounts can be managed more efficiently and applications approved/processed more quickly. What's more, outsourcing forms/application processing can free up departments to work on other revenue-generating activities.

Feature of the product

- Intelligent Character Recognition (ICR), Optical Mark Recognition (OMR) and Optical Barcode Recognition (OBR)
- Upto 99.995% accuracy
- Documents/Forms are electronically searchable with additional attachments
- Faster turnaround time

Benefits of the product

- Realize minimal set-up costs.
- Cover the whole spectrum of service which includes form design, print, templating/application development, filing and processing.
- Enhance customer satisfaction
- Our training and quality standards ensure efficiency and reliability of data and proven, quality services and support.

Highlights

- Fluctuating volumes can be easily managed, without having to worry about the change requirements in staff, technology or premises.
- Benefit from complete asset utilization and significantly reduced costs.
- Additional services available — such as telephony to complete rejected or incomplete forms.

Representative clients

British American Tobacco, World Intellectual Property Organization (Switzerland), UNDP, Institute of Micro Finance, East West University, Banglalink, Citycell, MGH Group etc.

Target Industry: Government, Education, NGO, Pharmaceuticals, Banking and Financial, Insurance, Survey and research organizations etc.

“ *I can honestly say that I've been impressed with the quality of data and turnaround time of the work submitted to BATB and the process flow was impeccable.* ”

Oli Ahad, Senior Business Analyst, British American Tobacco, Bangladesh
