Image Manipulation Services

Virtually every image we see about us in the world today has at some point been edited or manipulated by a designer to either clean the image up or create an entirely new piece from existing photographs. Digital image manipulation or image editing has been used by the media industries since photography began.

In the above images Final product has created from three shot of front part, back part and a supporting part
Tahasin IT Limited have all, at point time in our lives, taken a photograph and discovered once it's been printed that either the lighting wasn't right, our thumb was captured along with our image or wished that we could remove a few wrinkles, or facial blemishes.

This issue is not just a problem for us amateurs, many professional photographers also shoot images with subjects, lighting or surroundings that detract from the quality of their photographs. At **Tahasin IT Limited** we take these photography discrepancies and correct them for you before they reach the end consumers.

Image Color Correction

Tahasin IT Limited, the leading digital image processing company, serves professional photographers and reputed printing company digital color correction problems and enhancing large collections of images. It will make the best of your photos and save your time and energy along with color balancing photos the way you like.

Tahasin IT Limited effectively solves poor contrast and color balance problems providing a more natural look to your images or helping increase saturation and achieve richer colors. Sometimes series of photographs need to be color adjusted to maintain consistency or to keep the mood continue; at this juncture.

TAHASIN IT LIMITED

Expert from **Tahasin IT Limited** artists redraw your raster jpg / bmp blurred image to vector format. No automated software used to create the vector- which would mean minimum vector nodes, lower image sizes, no overlapping cut lines, and files ready for print production / plotting / etching.

Shadow Creation

All the experts in **Tahasin IT Limited** are qualified with Fine art artists and designee. Like clipping path and others image manipulation services, our experts are experienced in various types of manual shadow, natural shadow, reflection shadow, drop shadow as per your images requirements.

Mirror Effect:

Drop Shadow:

Photoshop Layer Effects includes Drop Shadow. As the name implies, this type of shadow is created when a light source is almost directly above a floating object—the silhouette of the object making the shadow is dropped onto the surface that receives the shadow. Drop shadows are cool for Web graphics and the text on most issues of PC Magazine. In the realm of photorealism, however, objects almost never float above a surface, and lighting is almost never so perfectly directed at an object that the object's silhouette is the shape of the shadow.

Drop shadow

Cast shadow

Our Clients

We have clients from many different countries; most of them are photographers, graphic studios, catalogue companies, web development companies, online sellers and printing press.
