# Background

Craftsmen Ltd. was established on the perfect blend of global experience of software engineers having more than 10 years of experience working with world's top software companies. We are providing premium software development solutions to the leading companies in the world.

# Our Mission

Craftsmen aiming customers to achieve operational efficiency and excellence. Our mission is to increase customers' business value chain through highly productive automated environment. We are continuously engaged to invent new ways to optimize customers' operations through technology.

# Our Services

## Software Architecture and Design Review

- Our experienced software architects are capable of designing complex enterprise solutions and can detect and analyze flaws of any design in advance.

## Software Development

- Software development is our core expertise. Just share your idea and we can make it a reality.

## IT Consultancy

- We provide IT Consultancy for mission critical projects to drive our customers to meet their goal.

# Our Services

## Business Process Automation

- We are capable to automate complex business workflows using modern tools, technologies and our own innovation, instead of traditional data keeping applications.

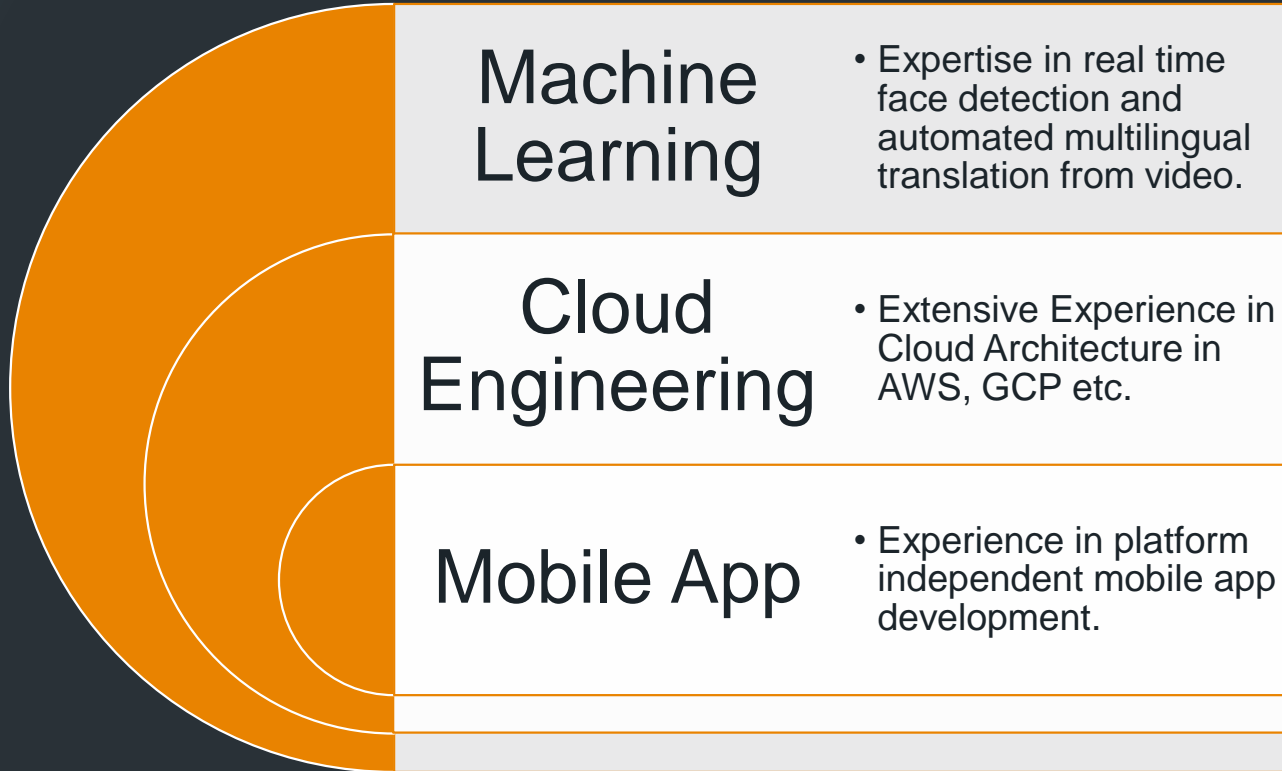

## Outsourcing

- Software development is our core expertise. Just share your idea and we can make it a reality.

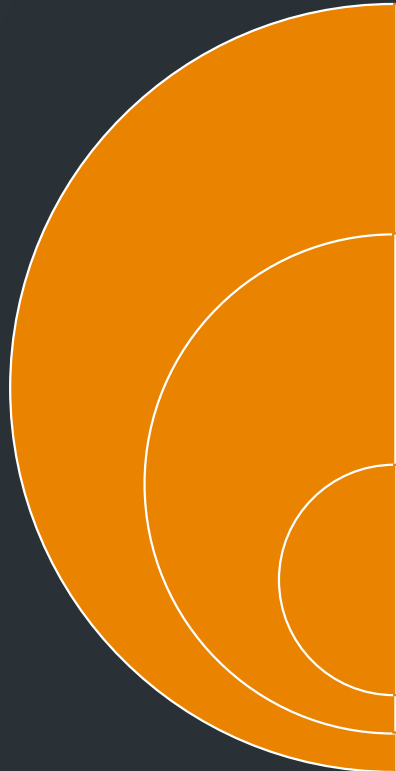

## Live Software Quality Check and Testing

- We have experienced software Quality Assurance (QA) department who are expert in automated software quality assurance as well as manual testing.
