It is going to arrange SAARC International Campus Summit 2015.

## **Conclusion**

Four D Communications Limited is successfully operating business and IT in the country over five years. Its previous event management experience and resources is well enough to conduct any kind of fair at any location of this country. We are contributing in IT sector by creating awareness among mass people, engaging themselves into direct communications with policy makers and offering jobs in their interested and expert arena. We are always ready to handle IT related project as we have experts in this procession. We have well established and decorated with all modern equipment and facilities for successful implementation of national events. We have the ability to face new challenges and undertake new project to implement. We have sufficient number of expert and trained staffs who are always ready to work for any type of IT related project. Online earning is a very popular income way at present world. Many opportunities are also made in our country. It can sufficiently decrease the burden of unemployment if it can properly disseminate. But for the lack of proper guideline and essential efficiency many people are losing the opportunity of income. Any people can be self-dependent by doing this work. The objective of our training is to create awareness among people and create new job facilities in the local and global market will be a blessing to the disadvantage group of our country. To remove unemployment and poverty from Bangladesh, this is the best way for the govt. creating awareness and capacity building in this booming sector.
