## GM Technology Your Trusted Digital Partner

GM Tech is an experienced Master Content Provider, providing solutions to operators using world-class technology. Leading the operators worldwide outsourcing of their content department to trusted CPs, GM Tech is a preferred partner for main operators thanks to our ability and experience managing all kind of channels, wide portfolio of content, and experience taking care of the existing relationships with the Content Providers and bringing all the new licenses and contents on board. This strategy can be determined by GM Tech's team in cooperation with the operator or acting as an independent team.
