

MIM TECHNOLOGIES LTD.

COMPANY PROFILE

Information technology, a new horizon of millennium. We feel that computer based working environment is very important to update every Individual with the international information technology.

Now every individuals, offices and production oriented organizations are trying to automate themselves with computers and they required solutions too for computing. We feel that commitment, proper solution and on time service after sales are the basic problems, faced by the prestigious customers like you, more or less.

To fulfill the above demand:

MIM Technologies Ltd. has started its computer hardware sales and services, Networking solution, software development, IP PABX solutions, VoIP solution and CCTV surveillance system to the market since 2007 with the help of well-educated and trained engineers. The company is committed for the service without any compromise.

Hardware sales & service - We have already started to sale computers, computer accessories and services. Our team of experts is ready to serve you when you are worried due to lack of confidence in “**commitment of service**”. You are hereby requested to call us for any kind of requirement of computers, computer parts and services whatever you need.

Network Solution – We do provide network solution and after having a long customer base for network and experiencing in wide area of network we can say that we provide new things to the market in the field of networking.

VoIP Solution– We are one of the largest VSP license holder in Bangladesh. We do consultancy and provide services on VoIP solutions in the overseas as per the demand of the customers. We have more than 500 SDAs (service delivery agent) globally who are connecting with more than half a million of end users. We are playing a vital role in earning foreign currency on behalf of the IIGs and as well as for the country.

Software development- beside the hardware and network solution; we are consulting on software, related to VoIP operators/ Users, Customized software on Sales, Accounts, Attendance and Payroll system software for trading, manufacturing house and group of companies. We hope to come to you with the software with the reasonable cost.

IP PABX solution – We are providing Hosted IP PABX solution service for enterprises.

CCTV & Video Surveillance- We are the distributor and solution provider of CCTV and video surveillance system for the enterprises as well as home users also..

We ensure our commitment of service in these regards.
