

## Company Profile

Founded in 2017, Dacca Cloud aims to provide qualified professional Information Technology services to the small and medium business market.

### Why partner with Dacca Cloud ?

Flexibility for growth  
Reliability  
Specialist industry knowledge  
Professionalism  
We understand small business

We are proud to have achieved the necessary qualifications to become a global IT service provider and will maintain this requirement since formation. Additionally, we have formed partnerships with industry leaders to better meet our clients consulting, technology and service needs.

At Dacca Cloud, we understand that businesses need quality, well-planned IT systems to prevent downtime. We are committed to develop reliable, long-term IT solutions which limit ongoing and unnecessary expenses associated with "quick fix" products. We plan with our clients and go the extra step to ensure that IT systems we create keep up with the needs of growing businesses.

## We offer our clients:

- Full helpdesk, network support, workstation and server maintenance as required or at a fixed cost as part of our Managed Services;
- Specialist knowledge of IT programs, including accounting, medical and small and medium business software, to provide our customers with expert service; and
- Ongoing IT support and advice to assist in the success and productivity of your business.

Dacca Cloud is based in Dhaka, Bangladesh. We service all areas locally and globally, and also support various offices for national/ international clients
