- Mobile/Tablets Apps (Android, iOS )
- Project Management and Business Analysis
- Website Design & App Design

## 3. AREAS OF EXPERTISE

### 3.1 WEB APPLICATIONS AND WEBSITES

We possess vast experience in creating Web applications of various types, levels of sophistication and purpose. All our applications are delivered using the most up-to date computer technologies and development principles, including Web 2.0. We have been involved in developing such applications as

- Real Time Application
- Database Management Application
- Queue Management Application
- E-Commerce Application

### 3.2 CUSTOM SOFTWARE DEVELOPMENT

Axial can deliver programs for virtually any business purpose for the wide range of platforms (Windows, Unix, Cross-platform applications in Java and more). Primarily, these are business applications such as

- Business Automation
- Market Analysis
- Trade Systems
- Accounting Systems

### 3.4 Project Management and Business Analysis

Years of hands-on experience and the time-proven Project Management Methodology, which has been created to incorporate all the specifics of our company development process, guarantee that our project managers can successfully plan, oversee and guide virtually any project, no matter how large and challenging, that comes their way. Our project leaders possess strong technical skills, allowing them to take on an active technical management role as well as their Project Management role. Moreover, it is vital that clients' business needs are correctly identified so that appropriate solutions to their business problems could be worked out. Our managers possess solid analytical skills and will work with you to achieve sufficient understanding of the structure and the dynamics of the organization in which a system is to be utilized and derive the system requirements needed to support the business goals of the target organization.

### 3.5 Website Design & App Design

We can create a smart and functional design for your new website or bring up to date with your current business requirements a website you already have. Our capable team would be happy to discuss your requirements and work with you to develop the most suitable solution. We are proud to work in partnership with only top-quality web designers, who are highly professional in the field and, much more often than not, know what aspects yield the best returns in a particular area.
