**Company Name:** BacBon Limited.

## **Background**

BacBon Limited Bangladesh started its inception in 2009 through implanting an innovative project called e-Education in rural area of Bangladesh. The aim of the project is 'Education Sector Development through Ensuring Quality Education for All'. The project incorporates digital invention and its tools as working media to gain the goal 'Quality Education for all'. The project was initiated by a group of young, energetic and talented people of Japan and Bangladesh. At the initial stage, e-Education project assisted and trained talented students of countryside to admit in prestigious public universities of Bangladesh who are from financially insolvent families. It is a free prep school service to students. Students take preparation for university admission through using audio visual lectures (offline e-learning).

The success of e-Education project inspired us to play role in greater extent. Thus, on 23 December 2013, BacBon Limited was registered under Joint Stock Companies & Firms, Bangladesh. It has been established to incorporate latest knowledge & innovation to help enhancing education sector of Bangladesh. We have specialized knowledge and expertise in e-Learning contents development and distribution, educational research, education software development, smart-class and all kinds IT related solutions.

However, to assist Bangladesh to achieve some SDG goals such as Quality Education for All, Decent Work and Economic Growth, Reduced Inequality, and above all No Poverty, BacBon Limited is trying to ensure quality education for all through using ICT innovation, reduce inequality among urban and rural students and ensure wellbeing of financially and regionally disadvantaged portion of population.

## **Mission**

Our mission is to create a unique quality service for customers by providing comfortable and com-mitted service. We work in accordance with the client's requirement and exceed their expectations in term of quality, cost control and time management.
