1.2 INTRODUCTION

PranonGlobal Ltd established in May 2017 which is also an **ISO 27001** Certified Company. It has been providing successful IT & ITES Services nationally and globally. As a result of expanding Panon's international IT & ITES services, recently it has renamed as Pranon Group.

Pranon has diversified its consultancy and ICT services from public sector development projects to private sector business and organization development processes. Over time, Pranon professionally has grown so rapidly both in size and in functions that, today it is considered as one of the largest Software development service providers as well as consulting and ICT firms in Bangladesh. It is a leading provider of Training, Capacity, Development, Engineering Consultancy, Social Consultancy & ICT consulting services in different sectors

with a view to emerge as “Making Difference”. Every service that this firm provides is designed to give its clients a competitive advantage with unique combination of skills and expertise. Our consultants combine top-tier competence in their respective disciplines and versatile operating experience at different sectors with wide variety of local and international exposure. Pranon has built up a large pool of consultants and IT Experts in various disciplines and can avail service of these as and when required. This includes Network Engineers, Software Engineers, Power & Energy Sector Specialist, Information and Communication Technology (ICT), Management Information System (MIS) Specialist, Training and Capacity Building specialist, education specialists, system analyst, sociologists, economists, environmentalists, planners, HRD specialists, institution specialists, computer system analysts & programmers etc. The very competent pool of consulting staff combines excellent credentials in their respective disciplines and versatile operating experiences at different sectors with wide variety of local and international exposure. All the members of this pool are quite notable in their respective areas. While some of them are freelancer, most of them are attached to either a university or research institute having national and international work experiences.
