

## Company Profile

CodeSmith Tech Ltd. is a progressive information and communication technology company in the information technology universe which started its operations in January 2017 in Dhaka, Bangladesh. The company has established its trade initiatives with an aim to serve the market demands of a broad range of Business IT needs by addressing all aspects of product and project development life cycle, ranging from preliminary analysis and design, software specification, project implementation through programming, development, testing and deployment, and finally training.

CodeSmith Tech Ltd. specializes in UI design, Python Development, Web Development, Mobile App Development, Automation (scripting), Motion Graphics, and is gradually marching towards scripted 3D Animation and Virtual Reality, Artificial Intelligence and Big Data based on super-computing cluster. CodeSmith Tech Ltd. places special importance on quick adoption of new technology.

Continuously striving to deliver true business benefits by simplifying connectivity and providing cost effective IT solution for maximum performance, security and convenience is what gives CodeSmith Tech Ltd. the competitive edge. By providing complete web solutions and information services to both local and foreign clients, as well as E-commerce capabilities, order processing, payment handling, products and services delivery and all other pertinent services throughout the transaction cycle are the core values of all.

CodeSmith Tech Ltd. ensures its clients an exceptional level of service using appropriate mix of world-class talent, strong management focus, dedicated business units and a strongly built financial platform. CodeSmith Tech Ltd. strives to provide superior services by handling knowledge based and manpower intensive activities to improve the client's cost structure, competitive efficiency, price, performance and bottom line results. Presently CodeSmith Tech Ltd. has several separate business units contributing to the ICT sector.
