## Background:

SPL was founded in 2011 with an aim to have an alternate best solution for replacing old system by using modern technology. Its a brainchild of [S. M. Nazmul Hasan](#) and with [Md. Shahadath Hossain](#) the company was founded. Both are graduated from CUET in Computer Science & Engineering.

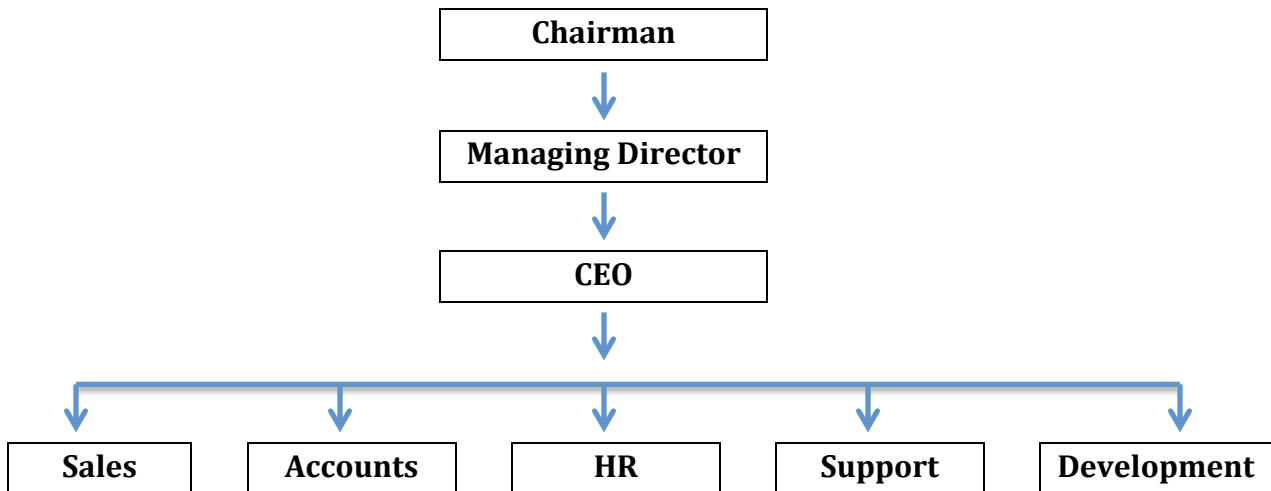

SPL is a Software Development Company focused on innovative software products. currently nurturing by a group of IT Professionals. Our staffs believe that their growth lies in company growth which is fully dependent on customers satisfaction. They enjoy their works, office environment, foods and daily life here.

We are passionate about our clients and their customers, care for our solutions and constantly searching for new ideas. We give ourselves and our clients the freedom to succeed because this fosters an entrepreneurial spirit.

We trust each other, we're open and challenging. We always behave as a team, when we're together and when we're apart.

We will strive to be the best - and are restless, always learning and improving. Trying constantly set high standards and then try hard to exceed them.

## Organogram:

Each department has a leader. And all team leader reports to CEO of the company.
