WHO WE ARE?

CBSG informatix is a team of talented developers and designers based in Bangladesh providing integrated information technology solutions to both local businesses and international clients. We were established in 2014, as the technology wing of Capacity Building Service Group, and launched multiple successful technical projects in collaboration with the government of Bangladesh and other NGOs.

OUR VALUES

We pride ourselves in ongoing enthusiasm for innovative technology solutions and dedication to success, leading us to provide tangible business value for our customers. We work closely with you to understand your requirements in depth, and go above and beyond to deliver a delightful product to address these needs.

WHAT WE DO?

Our team has deep expertise in many facets of modern software development, and we focus on delivering a compact technical solution to your needs. We build beautiful websites, design logos and graphics elements that capture the essence of your business, provide reliable website and database hosting, and make engaging mobile apps.

OUR SERVICES INCLUDING:

- WEB DESIGN & DEVELOPMENT
- GRAPHICS DESIGN
- WEB APPLICATIONS
- ANDROID APPS
- IOS APPS
- SEO
- BPO
- TRAINING

HOW WE WORK

CUSTOMER FOCUS

As partners, we work with our customer's side-by-side to deliver the best solutions for their business challenges. Our approach is to welcome the customer's ideas while proactively leveraging our expertise and advising on technology matters. Our greatest pride and our motivation is delivering technology solutions that our customers and their users love. Customer success is our success.

INNOVATION

We constantly search for the new – smarter, faster and more effective – way of doing things. We explore the technology space, mastering the industry's new tools, practices, and methodologies. Our investment in R&D helps our customers always to be one step ahead, providing them with a competitive advantage. By applying high technology in an elegant fashion, we solve a wide range of business problems.

EXCELLENCE

We are committed to high standards of quality. We have a proven record of making best in class software as well as expertise in developing our own successful products. As engineers, we promote the continuous improvement in all aspects of our activity and nurture a learning culture throughout the company. We encourage the continuous development of our skills to deliver excellence in everything we do.

COMMITMENT

You can only achieve great results if you are dedicated————— to your goal. We are inspired by the potential applications of high technology in solving complex business problems – and we are committed to produce the best possible solution. If you are passionate about what you do, this is the place for you.

TEAMWORK

We foster collaboration and team spirit throughout the organization, in both internal and external engagements. Our cross-functional team works seamlessly to produce results that exceed expectations. Our customer is a part of our team. As technology and product development experts, we work alongside our customers to deliver high-quality, effective and attractive solutions. Together we can accomplish great things.
