Popular Clients

Alpha Net Infrastructure

Alpha Net Infrastructure

We are not aware of another Company in Bangladesh that can match the configuration we deployed in late 2015. We Offer Latest Technology every time. We have upgraded the access switch in our Rack space, replacing an old 16 port un-managed gigabit switch with a 48 port layer 2 managed switch with 10 Gbps uplink options. This gives us the ability to monitor, troubleshoot, and control individual ports on the switch. You have a choice of 10M, 100M & 1G up-link to the Internet. Currently, We Provide BDIX Connectivity with up to 500 Mbps Speed. In Bangladesh, We have two different locations of Datacenter. Both are Tire 3 Data Center.

### BDIX Hosting Servers in Bangladesh

As the leading Hosting & Cloud Infrastructure provider in Bangladesh, Alpha Net provides fast BDIX Hosting solutions. BDIX is the leading Internet Exchange Point (IXP) of Bangladesh. Alpha Net maintains private cloud Infrastructure at two leading Datacenters in Dhaka, Bangladesh. Both of these Datacenters are connected to BDIX over a fiber link. The average response time between these two Datacenters is only 1-2 milliseconds! For low latency, fast connections to websites and services in Bangladesh, choose any of the following BDIX connected services with Bangladeshi IP Address: Web Hosting, VPS, VPN, Cloud Storage, Dedicated Servers and IP Telephone.
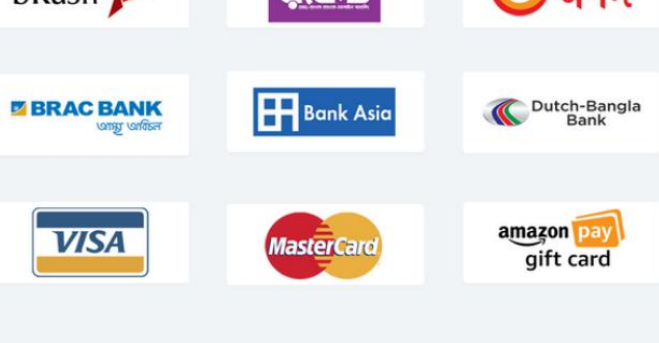

Alpha Net's Worldwide Data Centers

Our USA Data Centers are located in Florida, Texas, Georgia, Virginia, Missouri, Chicago, Illinois, San Diego, California and more. Alpha Net also maintains server infrastructure at two Data Center in Dhaka, Bangladesh: ColoAsia and MetroSky. Alpha Net also maintains strategic partnership with two other Data Centers in Dhaka: ColoCity & Dhaka Colo. Each of these Data Centers feature fast BDIX Connectivity. Website Hosting, Email, VPS, VPN, Cloud Storage, Dedicated Servers and Server Colocation services are available at these Data Centers.
