OUR BUSINESSES

Currently we have business in 3 different yet interlinked industries where our services support each of our business individually.

Information Technology (IT) Industry

Application Platform

Digital marketing Industry

INFORMATION TECHNOLOGY (IT) INDUSTRY

IT INFRASTRUCTURE SOLUTIONS :

We provide it infrastructure solutions which deliver reliable connectivity, high performance and easy integration in existing networks. Our network solutions help lowering network operating costs. All of our solutions include training, maintenance and support options to ensure trouble free operations of our clients.

TIME ATTENDANCE & ACCESS CONTROL SOLUTION :

From the beginning of our company, this service has made its footprints in all sectors. To provide the best possible solutions and to fulfill the requirements of our valued customers, we maintain a portfolio of skilled manpower and a product line of world renowned brands.

INDUSTRIAL SECURITY & SURVEILLANCE SYSTEM :

We offer wide range of Security & Surveillance solutions suitable for all indoor, outdoor and even perimeter protection. Depending upon applications, different types of cameras i.e. dome, box, IR, speed dome, PTZ and for highest clarity, HD are offered. Both options, either IP or analogue are available to suit different budgets and conditions. To store and reproduce images captured, again various options are available for DVRs and NVRs. All these products are powered by patented technologies offering unique features for the best quality, different conditions and investment protection.

NETWORK SECURITY SOLUTION :

Today's Network Architecture is complex and is faced with a threat environment that is always changing and attackers are always trying to find and exploit vulnerabilities. These vulnerabilities can exist in a broad number of areas including devices, data, applications, users and locations. For this reason, many Network Security Management tools and applications are used today that address individual threats and also exploits regulatory non-compliance. We represent few of the world's leading products to secure customer business operation.

APPLICATION PLATFORM

Document Management Applications :

For Track manage and store documents and reduce paper.

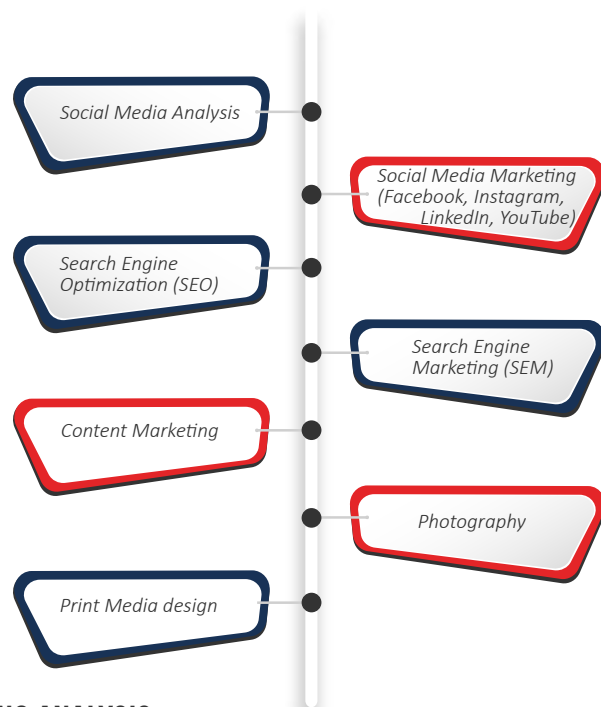

Website Designing :

We provide Website Designing service where we design professional looking, multiple device responsive, user friendly and well-informed website for our clients.

DIGITAL MARKETING INDUSTRY

Our Digital Marketing Concern provides marketing services to companies to promote their business online. We analyze our client's business, their product, the industry and their competitors. Based on the insights we find from our research; we develop the brand plan and marketing plan for our clients to promote their business and products.

For marketing, we provide following services:

MARKETING ANALYSIS :

It is important to analyze your current business, product and marketing activities to find out the similarity and difference of your offerings with your competitors. In this way you can simply understand where is your stronghold and where your offerings lack. This is why, first we do the analysis for you to find out the core issues you are facing and make a plan accordingly to solve that issues.

Quintet Alliance

A/B TESTING :

You just can't launch a Product and gain Massive Success and Connect with Your Customer. After Collecting Data that is both Relevant to You and Your Customer its best to Test the Product and see how it's being treated. After that you can change what is required without you sweating and breaking the bank.

BRAND DEVELOPMENT :

Brand is the key to develop and grow a business for a steady and constant success. We find out the uniqueness of your brand and position the brand in your customers' mind accordingly. This way your customers can know you for the unique services you offer and remember you for your unique brand image.

ACTION PLAN DEVELOPMENT :

Based on the insights we find from our research we develop an action plan that will help you to get your desired outcomes. We measure the outcomes from our marketing activities for you and present to you the results of those activities so that you can easily understand the improvement we have achieved together to promote your business.
