ABOUT US

The Best in The Business

Set your goals and achieve them with the help of dedicated and visionary founders, dynamic management, competent creatives, and skilled support partners. We are the best among the best. We have been doing image processing, graphic designing, digital marketing, website development, and web app development for a very long time. In Europe, we do have profoundly fit visual coordinators, giving their best here.

We are here to meet your expectations and demands. Along these lines, let us carry out our responsibilities and be stunned. It is with pride and gratitude that we acknowledge the recognition our services have earned in the pursuit of professional levels. We are not saying to pick us in the first place, but we need to express that we have amazing materials and unimaginably experienced team members who have been working here with their expertise for a long time and are providing committed work so you can pick us. Working with us is like getting partners and helping hands from different sectors both at home and abroad.

WHAT WE DO The Complete Service

We offer the full spectrum of services to help organizations work better and sell better. Everything from creating standards of excellence and growing brand values.

Membership:

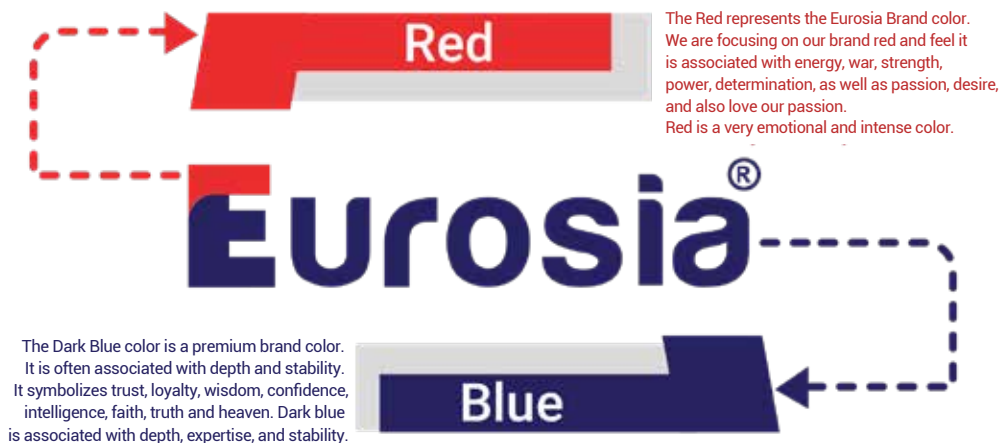

OUR LOGO

The concept for our logo is derived from the shape of human hands; the shape they make when held with the palms facing each other. Usually, when we hold an object in our palms, it is something we care about, something valuable to us. When a gust of air attempts to put off a candle that gives us light, we protect it with our palms. When a tiny bird falls from its nest, we hold it up and protect it in our palms. When a sculptor sculpts a masterpiece, he shapes it using his fingers and palms. Hence, our logo depicts the amount of care and emotion we put into each and every creation. Moreover, it is a symbol that inspires us on a daily basis to be kind towards our clients and protect their interests by providing an uncompromising level of service and superior products.

VISION & MISION

Vision, Eurosia Group is the largest B2B brand tech company, providing brand partners with a single dashboard to search, compare, and compare real estate, technology, restaurants, hotels, travel agencies, food, home appliances, newspapers, and agro-farming to help our customers build sustainability. So no more thinking. I think that it is my turn to fulfill the dream.

Mission, Eurosia Group is the largest B2B brand tech company, providing brand partners with a single dashboard to search, compare, and compare to real estate, technology, restaurants, hotels, travel agencies, food, home appliances, newspapers, and agro-farming to help our customers build sustainability. So no more thinking. I think that it is my turn to fulfill the dream.

Head Of Management

Rita Akter

Chairman

Mohi Uddin Liton

Managing Director

MESSAGE OF THE MANAGING DIRECTOR: *We continuously strive for excellence in all our business activities through our professional teams and strategic partners. Our main target is our customer satisfaction through quality services and providing project execution at our best.*

Board Of Directors

Rita Akter

Chairman

Eurosia Group We began the journey with a small renovation in Matikata, Cantonment in 2016 and since then, have flourished into creating large scale real estate, the latest technologies, restaurants, travel & tourism, and organic farming endeavors. Through its existence, Eurosia Group has been steadfast in its commitment to quality and dependability. Our relationship with the customer doesn't end at the date of handover but is a lifelong arrangement. Each of our estates has been built by keeping the life that will be led in that home in mind. We are a family, and we invite you to join us on our journey to make our lives and our homes full of love and success.

Mohi Uddin Liton

Managing Director

Eurosia Group We continuously strive for excellence in all our businesses and through our professional teams and strategic partners. Our main goal is to satisfy our customers by providing high-quality services and project execution at its best. We provide training to our employees in the US and abroad so that they should always have an updated knowledge of the latest technology. We do not do business which we do not understand or know well. Our business is not that big, but whatever we do, we do professionally. Finally, but not least, we wish a friendly global business relationship in the days to come.

Board Committees

Nasir Uddin Shipon

Deputy Managing Director, UK

From the sweeper to the security officer, from the messenger to the manager, everyone doing well at his post is a leader. "The organization becomes a leading one when it's made up of people leading in their roles."

"A successful man is one who can lay a firm foundation with the bricks others have thrown at him."

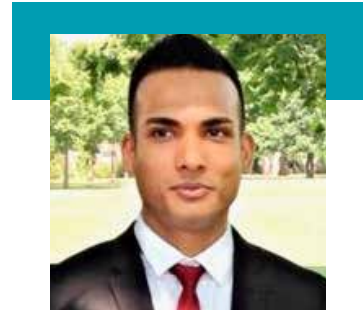

"It doesn't make sense to hire smart people and tell them what to do. We hire smart people so they can tell us what to do."

Md Shoukot Alam Shopon

Director (ADV), UK

A successful man is one who can lay a firm foundation with the bricks others have thrown at him. Brinkley, David. Running your own business is a lot of work. One of the secrets to success for all entrepreneurs is to plan for and embrace failure. You are going to run into lots of challenges. Many people will try to take advantage of you when you are down. The greatest delight in my career has been to rise from the ashes and prove others wrong.

Sujon Uddin

Director(Business Management), UK

Small business owners frequently struggle with trusting others to run the company and delegating decision-making authority. But there's a big difference between micromanagement and leadership. Steve's quote is a reminder to trust in the skills and opinions of our top employees. It's also something I remind my own manager of. The quote helps everyone spend less time managing and more time getting stuff done.

Our Services

Dear Concern,
This is Eurosia Technologies Limited. We can provide you with any kind of digital service. Our creatives and professionals are experts in:

Web Application and Software Development

Web application development is the creation of programs that reside on remote servers and are delivered to the user's device over the Internet. A web application (web app) does not need to be downloaded and is instead accessed through a network.

Digital Marketing Services

The digital marketing service is one of the trendy online marketing services. Marketing has changed more in the last 10 years than in the previous 100, taking us from the age of television and print advertising to the age of websites and Google.

Motion Graphics Design Services

Motion graphics design is very helpful for getting more potential customers on your website. If you want to get highly engaging creative motion designs, you can choose us without any doubt.

Graphic Design Services

Do you have to introduce products expertly in your e-shop? You are in the perfect spot. We can assist you with retouching your packshot photos and spare your time.

Domain Hosting

Choose your perfect plan.
SUPER FAST SSD HOSTING IN SINGAPORE.

Image Post Production Service

Image post-production is a service that is mostly related to filmmaking, photography, and video editing. It is the most important part of the photography field.

We are dedicated to delivering you the best services.

Please let us know your requirements so we can provide you with the most suitable package with the best services. Feel free to contact us anytime.
