ABOUT COMPANY

We do believe that experts should completely focus on their area of expertise. A person could know almost everything, but may not focus well on a single element. At Zecodeek IT Ltd., we wholeheartedly take care of our client's project, the jobs are done from the scratch till the finishing by an expert as it should be. Our Front-end team delivers professional-looking creative design, and make your HTML most updated yet all-browser compatible. And Back-end team make your site in an efficient way so that you could rely on our solution for many years to come. Business profitability depends on productivity, cost-efficiency, and innovation-all of which are enhanced by good technology decisions as well as implementations. We work hard to recruit, train, and retain the most talented software development professionals in town who can work cordial enough with you at every stage in the development lifecycle of your product. Client satisfaction and long-term relationship is the goal of our customer care. We do believe in community culture and working together as a team that we always try to practice on our premises. We love social engagement, sharing our stories to our clients and colleagues. We love having fun and enjoy each and every bit of the moment we pass by. Welcome on board.

MANAGING DIRECTOR STATEMENT

Roushonul Mahbub

I have founded zecodeek IT Ltd. on objective to create great product and service for our client. We are providing service that help our client to manage their digital marketplace with minimum human input. We are also creating custom solution that are targeted to use automation to bring more profitability and efficiency for our client.

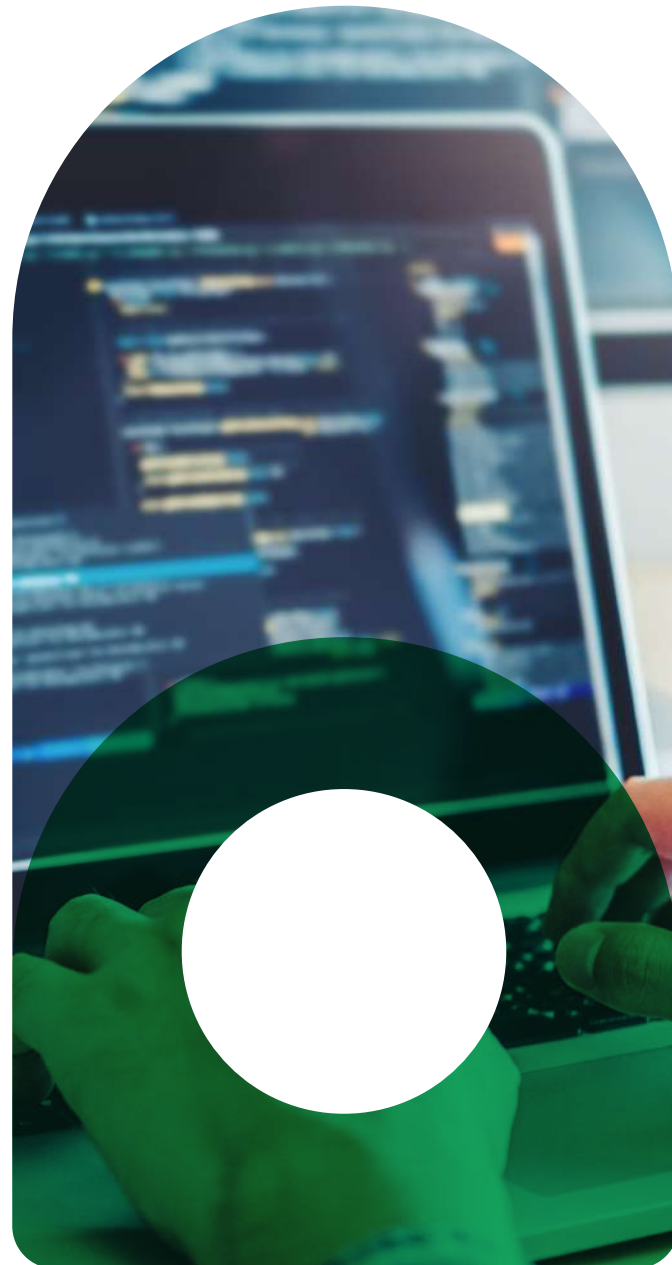

Not only for client it is also my priority to make the zecodeek IT Ltd a place where developer will enjoy their work and take pride on their achievement and know their future is secured. By becoming the bridge between our valuable client and developer we are ensuring prosperity for us and will continue help our country and community as our ability permit.

COMPANY HISTORY

2022

Inception of zecodeek IT Ltd. happened on 2022. But the same team and management was active more than 8 years plus on different settings. To make management more structured and to follow the corporate rule and provide more advantage for team we reorganized all our operation under zecodeek IT Ltd. from 2022.

MISSION & VISSION

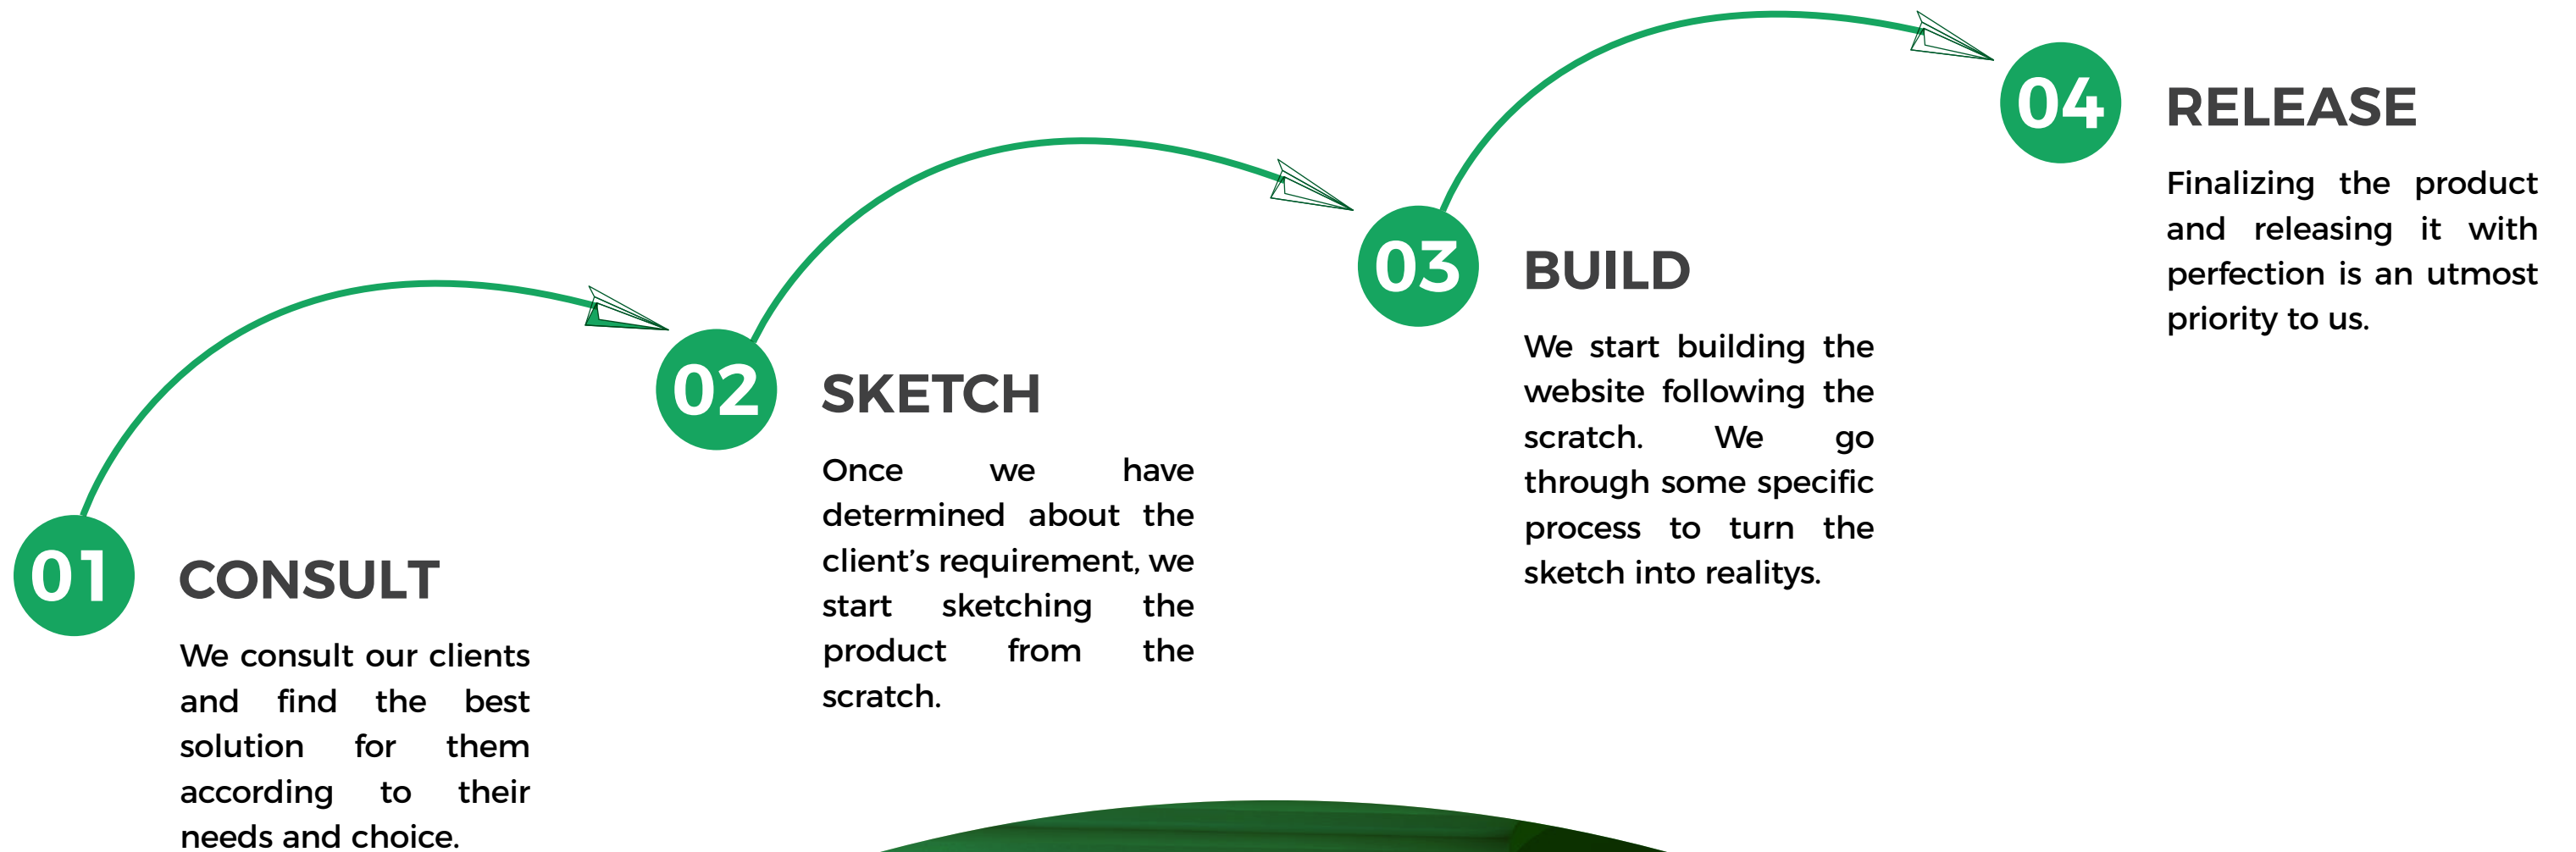

In zecodeek IT Ltd. our mission is to provide and find solution that will help clients to make their business more cost friendly by taking help of web.

Our future plan is to delve more on the path of automation that will create more efficient solution.

OUR WORKING PROCESS

We are always here to extend our helping hand with effective solutions when you need it.

”

OUR SERVICES

Content Management

We are providing expert team to solve the issue of content management who are capable of translating client literature to web content.

Design & Development

A customer did not see the code or content on the back at a first glance when they arrive on your site. What they see first, that its design.

CMS Solutions

Our expertise in the field of CMS Development in Bangladesh is immense with expert CMS developers focusing on providing best solution.
