## 1.3 Success Stories

### The Mall

TheMallBD.com is one of the first E-commerce sites in Bangladesh which offers directly imported products only from the UK and USA. It is ranked 2nd in the lifestyle category in Bangladesh.

**Challenges:** The MallBD used prestashop previously, but due to scalability issues, they decided to shift to customized backend and frontend. Then we carried out the full project which included migration of data/images/customer data from prestashop

Also, the mobile app had lots of issues prior to our development. After launching the new app, in the last 12 months, there were not a single issue that arose from the mobile app.

## SAMS CRM

SAMS CRM is a SaaS platform by SAMS Global Solutions Ltd. SAMS CRM encompasses the whole student recruitment process under one single software package to achieve greater efficiency.

The screenshot shows the SAMS CRM dashboard. On the left is a navigation menu with options like Dashboard, Lead Management, Application Dashboard, Decision Pending, Offer Letter Management, Visa Letter Management, Accounts & Invoices, Reports and Analytics, Colleges & Universities, Sub-Agent Management, Configuration, and Email Campaign. The main area displays a list of leads with the following data:
