Mission and Vision:

IT Nut Hosting is a trusted and registered domain and hosting service provider in Bangladesh.

The company started its journey on 4th August 2014 under the name of 'BD Host Geek' with only 2 members. Then they change their company name to 'IT Nut Hosting'; the intention is to provide an international standard Domain Hosting service. They served their best service with high praise to the local and international arena for the last nine years.

There was a time when Bangladeshi IT professionals had to get into trouble with a Payment Method, Live support, and many others when they took an international Domain Hosting service.

At present, the entire scenario has changed. Now in Bangladesh, lots of distinguished hosting provider has emerged. Most of the time, they provide more reliable and relentless service than a foreign Hosting service provider.

Ensuring the world-class Hosting service from Bangladesh and proceeding domestic IT sectors are the main intention of IT Nut Hosting. That's why they're securing relentless 24x7 and 365-day live support service and ensuring customers' feedback for updates new features.

IT Nut Hosting is trying to present itself as the best Hosting service provider company and spread it worldwide. And creating more job facilities to reduce the unemployment rate.
