BASIS OVERVIEW

BASIS
OVERVIEW

Bangladesh Association of Software and Information Services (BASIS) is the national trade body for Software & IT Enabled Service industry of Bangladesh. Established in 1997, the association has been working with a vision of developing vibrant software & IT service industry in the country.

BASIS started its journey with only 18 charter members. Today the membership stands more than eleven hundred. Members of BASIS account for the lion share of the total software & IT services revenue of the country.

BASIS tries to pursue the following broad goals through its regular programs and activities:

• Domestic market development by creating awareness

• International market development through networking and business linkage

• Capacity building of the member companies

• Member service development and delivery in different operational and business support areas

• Advocacy for business friendly and enabling government policies for the development of software and IT enabled service industry

• Social contribution, as responsible citizen group, towards the long term national vision

BASIS has already gained modest success in attaining the above mentioned goals. For domestic market creation, BASIS has wide range of programs and activities. Every year BASIS organizes BASIS SoftExpo, the biggest software and ITES exposition in the country. During the recent years, SoftExpo has become the yearly mega market place where software & IT service companies in the country project their products and services to potential IT users, both at corporate/organizational and individual level. For development of market in government sector BASIS has been working closely with different concerned Ministries and agencies of government. With regard to export market development, BASIS regularly takes initiatives for creating exposure for member companies to international markets with the help of different government and development agencies working in the export development area.

BASIS has led numerous industry development initiatives such as workshops, industry seminars and conferences, and industry research studies. These activities are aimed at not only to support the One Bangladesh Vision, but also to catalyze industry growth.

Membership Growth

Established in 1997 with 17 members

1031 members in 2017

1997 1998 1999 2000 2001 2002 2003 2004 2005 2006 2007 2008 2009 2010 2011 2012 2013 2014 2015 2016 2017

ORGANIZATION STRUCTURE
AND GOVERNANCE

BASIS is run by a nine member Board of Directors (elected by direct voting of the members). The Board of Directors has the overall responsibility for running the affairs of BASIS and setting policy guidelines for its secretariat. Aside from the elected board of directors, there are 24 Standing Committees comprising of members who are experts in relevant areas.

Executive Committee
9 Members

Standing Committees
24 Committees in Total Endorsing around 400 members

Board Sub-Committees

Other Forums, Groups and Committees
11 Forums, Groups and Committees in total
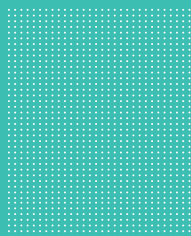

Secretariat
A pool of 20 Officials

BASIS has a strong secretariat. The secretariat is well staffed to deliver different member services and to carry out programs & activities in different areas as specified within the broad goals of the association. Currently, the employee size of BASIS Secretariat is 20.

SOFTEXPO HISTORY

Science and technology have made our lives simpler. Works can be done easier through high- tech software and applications. It revolutionized our daily life and one cannot be thought without thinking of the other. With this view in mind, Bangladesh Association of Software and Information Services (BASIS), has come forward to enlighten the public about the infinite horizons of technology. BASIS is the national trade association that came into existence in 1997, represents software and IT enabled services industry in Bangladesh. For more than a decade, BASIS has been organizing country's largest private sector showcase "BASIS SoftExpo" for Software, IT Enabled Services (ITES) and ICT system solutions. The core vision of BASIS SoftExpo is to showcase the eminence and competencies of Bangladeshi Software products and IT Enabled Services, bring potential customer and IT/ITES companies together in a single platform, promote free flow of ideas and share experience with the global audience and help implement Digital Bangladesh vision through branding Bangladesh as a worthy destination for IT investment. BASIS SOFTEXPO 2018: AT A GLANCE

0101100010

BASIS SOFTEXPO 2018
AT A GLANCE

BASIS SOFTEXPO is the annual mega exposition and the largest showcase of IT and ITES products and services in the private sector of Bangladesh. We are pleased to announce that BASIS SOFTEXPO 2018 is scheduled to be held from February 22-25, 2018 at Bangabandhu International Conference Center (BICC). The 4-day event will be a congregation of ICT companies, personalities, key policy makers, industry leaders and other ICT stakeholders.

It is expected that BASIS SOFTEXPO 2018 will be bigger and better than before. Especially inclusion of Software showcasing Zone, Mobile Innovation Zone, Digital Commerce Zone, ITES & BPO Zone and B2B Matchmaking under the same umbrella will add a significant meaning to the entire initiative. In this context, SOFTEXPO would be a unique opportunity for Software and ITES companies to showcase their products and services before the enormous number of local and international visitors and to meet prospective buyers.

Powred by

Banglalink

Launched in February 2005, with over 30 million subscribers over a decade, Banglalink was the catalyst in making mobile telephony an affordable option for consumers in Bangladesh. The initial success of Banglalink was based on a simple mission: "Bringing mobile telephony to the masses", which was the cornerstone of Banglalink's strategy.

Banglalink provides equal opportunities to employees and has always shown zero tolerance for any non-compliance activity. Banglalink's HQ became the first certified Green Office by World Wide Fund for Nature (WWF) in Bangladesh. The company has relatively formed a flat organization, Banglalink is now working relentlessly to bring digital world to each and every customer to build a true digital Bangladesh.

Bank Asia

Bank Asia has been launched by a group of successful entrepreneurs with recognized standing in the society. The management of the Bank consists of a team led by senior bankers with decades of experience in national and international markets. The senior management team is ably supported by a group of professionals many of whom have exposure in the international market.

It set milestone by acquiring the business operations of the Bank of Nova Scotia in Dhaka, first in the banking history of Bangladesh. It again repeated the performance by acquiring the Bangladesh operations of Muslim Commercial Bank Ltd. (MCB), a Pakistani bank.

Bank Asia Limited started its service with a vision to serve people with modern and innovative banking products and services at affordable charge. Being parallel to the cutting edge technology the Bank is offering online banking with added delivery channels like ATM, Tele-banking, SMS and Net Banking. And as part of the bank's commitment to provide all modern and value added banking service in keeping with the very best standard in a globalize world.

ICT Business Promotion Council

Business Promotion Council (BPC)

Business Promotion Council (BPC) is a product specific sector promotion council with a mandate for export diversification - represented by government organizations and trade associations having immediate stake on the identified sector.

It was a belief that, Export diversification can be achieved if enterprises are competitive in the international market. But to increase competitiveness enterprises need to be able to produce the appropriate product within right price, using the appropriate technology and should be compliant to the requirements of the buyers.

IBPC
Information and Communications technology (ICT) has enormous potential for Bangladesh in furthering her sustainable development and achieving competitive position in the global market. It might be of noted that besides opening up new horizons of possibilities, Information technology goes a long way in creating a level playing field in the global economic setting. In recent years Bangladesh earned a rapid growth in ICT export.

Core Knowledge Limited

coreknowledge
e-content. delivered.

Pavilion: **PV-25**

Core Knowledge is a digital content distribution company which has brought quality digital solutions suitable for school, university, corporate, and even government usage. Since its inception in 2009, the aim of Core Knowledge has been to make education and training effective and efficient, while being enjoyable for users at the same time. Core Knowledge brings to you unmatched solutions, tailor made to cater to all of your needs.

Core Knowledge brings to you a wide range of tools, resources and solutions for use at any and every stage of the educational cycle, from pre-school classes to university lectures, and vocational training to advance level courses. This provides a platform for a technology-based learning system that can be enabled and implemented, thereby replacing outdated, far less productive means of procedural and passive learning.

Digital learning allows for the most efficient method of teaching. Promoting students to actively participate in lessons and discussions, while assisting educators by providing a multi-dimensional approach, immensely helps improve both the standard of education and the level of students' understanding. The sheer volume of information available digitally is remarkable, and can easily be made accessible to almost anyone, anywhere at any time.

Over the last six years, Core Knowledge has implemented over 750 smart classrooms across the Bangladesh. To use state of the art technology, over 4000 teachers were trained in using technology supported teaching. The end result is that smart learning has been delivered to 1,50,000 students in our country.

Products and services Exhibited
Interactive White Boards, Digital Contents, CORE CAMPUS (School Management System), Live Virtual Learning, E-Learning courses and Learning Management Systems.

BASIS Institute of Technology & Management (BITM)

To address the skill gap of HR in the industry, BASIS started its own training activities in 2007. Later in 2012, BASIS institutionalized its training activities and set up BASIS Institute of Technology & Management (BITM) with the support of World Bank. BITM was established with a vision to be a world-class IT institute in Bangladesh for the purpose of enhancing the competitiveness of the IT Sector in Bangladesh by creating a pool of qualified IT professionals and quality certified IT companies.

To become a Center of Excellence in Information Technology and Knowledge Management for a more proactive and responsive extension service through innovation, dedicated research and development teams and management expertise tied with a strong technology focus.

Field Information Solutions Limited

Field Information Solutions is the company behind the "Field Buzz" software platform. We design and implement enterprise management systems specifically for organizations with field staff in dispersed and remote locations:

Territory officers, registration officers, surveyors and inspectors, salespersons and delivery persons, on-site installation and repair technicians. Field-level employees' workflows and transactions are carried out through our customized smartphone or tablet apps, which are synchronized through mobile internet to a web-based admin and reporting platform for use by managers known as Mission Control. Our real-time maps, dashboards and drill-down analysis, alerts about unexpected or non-compliant behaviour, target-setting and incentives, and data-validation and fraud minimization mechanisms, help managers to hugely increase the transparency and efficiency of their operations. Field Buzz helps organizations decreases operational cost and increases revenue by automating field force management.

We have two offices in Dhaka and Frankfurt with 26 employees consisting of software engineers, implementation consultants and project managers.

Stellar Digital Limited aka BONGO

Mini Pavilion: MP-37

Stellar Digital Limited was founded in early 2014 as a video content and technology company under the brand BONGO. With a background in film, media and business, the founders saw an opportunity in digital content. Having seen developments in the media industry abroad, Bongo decided to build a content library and a video platform and make use of a first-mover advantage.

Today, three years later, the this strategy has proven successful with Bongo being the market leader in digital video in Bangladesh and several other countries. Bongo's flagship product is Bioscope (www.bioscopelive.com) a world class VOD and Live TV platform marketed by Grameenphone. In addition, Bongo maintains a YouTube network reaching 4.3 million subscribers. Looking back at the past three years, the first step in the company's strategy was to acquire as much content as possible. In the industry 'Content is King' and Bongo now has acquired digital rights to some 50,000 titles (an estimated 85% of the content in the market). Also, developed in-house by our team, Bongo has several platforms and portals live in 6 countries. Bongo platforms are available on (responsive) web, Android and iOS.

Monico Technologies Limited

Monico Technologies Limited, sister concern of Monico Limited, is a new start-up started in July 2011. It has been operating business in the areas of Vehicle Tracking Service (FINDER), Asset Management, Online Truck Hiring Platform (Truck Kothay?).

FINDER is the pioneer in Vehicle Tracking Service in Bangladesh. The service is available throughout the country. Despite of having lots of individual customers, almost all the SME and corp orates are also using FINDER to monitor their fleets. The website, android and iOS app are locally build and that's why customization is very much possible.

Truck Kothay is the latest service by Monico Technologies which is designed to provide an online platform for hiring trucks from anywhere. Goods owners can easily add a trip by inserting goods related information, start and end point etc. The information is then sent to corresponding truck drivers. They can easily bid for the trip. If the bid is okay then they can start the trip on time. Most interesting thing is that, both the goods owner and the truck owner can monitor the trip in details as all the trucks are equipped with tracking devices.

PeopleNTech Limited

Since its inception in 2005, PeopleNTech has trained over 5,000+ students. Abu Hanip, founder of PeopleNTech is strongly focused on changing lives and careers since its inception. At PeopleNTech, we provide hands on training with real-time project oriented approach. 95% of our students get employed within a week of completing the course. The real world competition pushes us to innovate new methods and approaches towards training improvements. We are a job market driven career change facility with decades of experience in the fields of software quality assurance, business analyst and database administration. Our certified instructors work closely with the students in every step of their learning process. Headquartered in Tyson's Corner, Virginia, PeopleNTech operates full service live, interactive, instructor-led real-life project-oriented online training via Webinar for your convenience. At PeopleNTech, We are passionate about learning, and we encourage our students to become the same. Our certified instructors have knowledge of and in-depth industry experience in testing technologies in all the hottest areas of today's job market. Whatever your previous professional and educational background, it is guaranteed that within couple of months you will be employed in the IT field if you complete the training with proper dedication and passion.
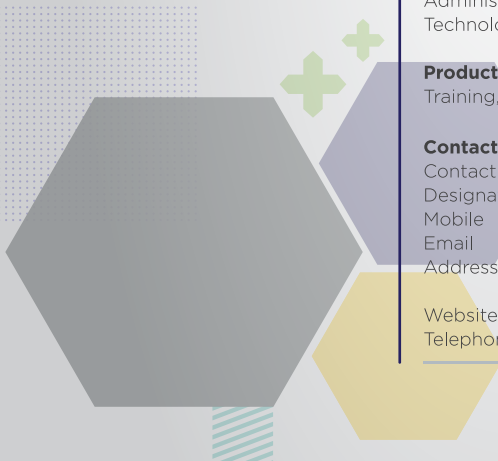

PeopleNTech has come up with a state-of-the-art training program in various topics like Quality assurance, Automation Testing, Manual Testing, Database Administration, Computer Networking, Microsoft Technologies and much more.
