Annual Report 2012

Association Overview

Bangladesh Association of Software and Information Services (BASIS) is the national trade body for Software & IT Enabled Service industry of Bangladesh. Established in 1997, the association has been working with a vision of developing vibrant software & IT service industry in the country.

BASIS started its journey with only 17 charter members. Today the membership stands at 574. Members of BASIS account for the lion share of the total software & IT services revenue of the country.

BASIS, through its regular programs and activities, works on the following broad objectives.

- Domestic market development by creating awareness among potential IT users from both private and public sectors, establishing market places for IT solutions and ensuring level playing field for local software and ITE service industry
- International market development through networking and business linkage events as well as brand promotion of the industry at international level
- Capacity building of the member companies as well as the industry as a whole through management/ entrepreneurship development initiatives, technology training and resource sharing.
- Member service development and delivery in different operational and business support areas like financing, tax, export/import, remittance, foreign visit, contract & legal issues, IPR etc.
- Advocacy for business friendly government policies for the development of software and IT enabled service industry
- Social contribution, as responsible citizen group, towards the long term national vision of becoming a technology driven knowledge economy, particularly through engaging with the young generation for motivating and guiding them for becoming future technology leaders.

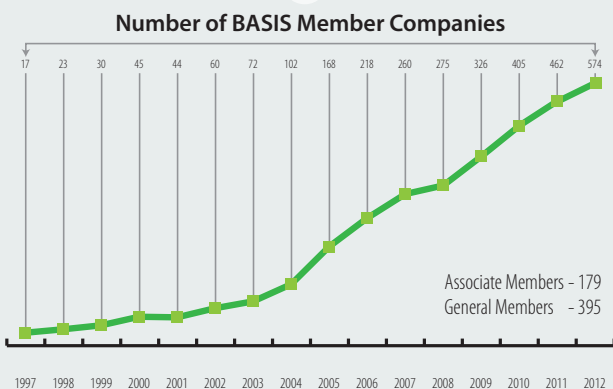

Organization Structure and Governance

BASIS Executive Council: BASIS is run by a nine member Board of Directors (elected by direct voting of the members for a two-year term). The Board of Directors has the overall responsibility for running the affairs of BASIS and setting policy guidelines for its secretariat. Aside from the elected board of directors, there are 16 (Sixteen) Standing Committees comprising of members who are experts in relevant areas.

BASIS has a strong secretariat. The secretariat is well staffed to deliver different member services and to carry out programs & activities in different areas as specified within the broad goals of the association. Currently, the employee size of BASIS Secretariat is 12 including BITM.

Current Projects of BASIS

- BASIS Institute of Technology & Management (BITM)
- ICT Incubator
- BITMAP (supported by Danish Embassy)
- BASIS-A2I Joint Project for national portal framework development
- NTFII Project (supported by CBI, Netherlands Government and implemented jointly with ITC, UN and DCCI)

- General Body of Business Promotion Council

REPORT OF THE BASIS EXECUTIVE COUNCIL 2012-2014

Distinguished Members of BASIS,

Assalamu Alaikum and a very Good Morning to all of you. I, on behalf of the BASIS Executive Council, would like to welcome you all to this 14th Annual General Meeting of BASIS and take the privilege of presenting the report of the Association for the year '2012.

Dear Fellow Industry Colleagues,

This is surely an immense pleasure for me to mention here that, the year '2012 has been very significant in terms of activities, achievements and lot of new initiatives. The year '2012 will certainly be memorable for BASIS community since BASIS has achieved few Local and International recognitions as mentioned below.

For the first time, BASIS, as an institution, has been appointed as Member of Management Council of EPB (one of the only two sector associations).

A number of BASIS members have got national and international level recognitions for their outstanding contribution as business leaders such as ASOCIO President, DCCI President, WITSA Director, FBCCI Director and JCI National President.

The year '2012 has also experienced export growth to reach highest in the recent past. I'm glad to bring the fact into your notice that, the software export earning is now one of the top 15 export earning items of the country.

Highest number of IT entrepreneurs has joined BASIS in the year '2012 (103 new members).

All these institutional and personal achievements of BASIS and its members have certainly become a huge pride for BASIS community and made '2012 a milestone year for BASIS. All these achievements are surely highly inspirational for us to take BASIS at a much higher level in the coming years together with you.

Now, I humbly present below the brief account of major achievements and initiatives taken by BASIS during the year.

Major Achievements of BASIS in 2012

Establishment of BITM (BASIS Institute of Technology & Management)

To institutionalize the HR development activities of the industry, BITM (BASIS Institute of Technology & Management) has been established. The main objectives of the Institute are to ensure steady supply of technical and managerial resources for the industry, to benchmark (by skill assessment) the quality of IT graduates and professionals, to facilitate adoption of standard best practices by the industry and to help BASIS member companies attain global certificates for business promotion. BITM was formally inaugurated by Honorable Minister of Education, Nurul Islam Nahid, MP on July 9, 2012. World Bank has also extended support under IT industry development program in institutionalizing BITM. Currently, a number of training programs are being conducted through BITM. In 2012, 795 IT professionals have received short-term and long-term training from BITM.

Successful BASIS SoftExpo'2012

BASIS arranged its yearly mega event BASIS SoftExpo'2012 during February 22 to 26, 2012. This year, SoftExpo has seen highest number of exhibitors from the industry. Apart from the exhibition, in different zones by software & IT service providers, various programs were arranged throughout the five days to make the event eventful and participative. These include seminars/roundtables, technical workshops,

business matchmaking sessions for selected industries, IT job fair, programming contest, grand award night with cultural program, closing celebration etc. This year, 10 companies from three European Countries attended the event.

Facilitation of Financing Arrangement for Member Companies

In order to help BASIS members for accessing fund from financial institutions, BASIS has taken initiatives to work with Bangladesh Bank and other financial institutions. A round-table was organized jointly by BASIS and Bangladesh Bank SME Finance division at BASIS Auditorium to find out problems and challenges of SME financing for IT companies on October 13, 2012. Representatives (head of SME department and credit departments) from over 30 financial institutions and IT entrepreneurs took part at the session and a number of recommendations were finalized to overcome the challenges of financing IT companies. Currently Bangladesh Bank is working in implementing the recommendations. BASIS also arranged to develop linkage between member companies and private venture funds to address the long-term funding requirements of the companies.

Business Linkage and Match Making Events in Europe

As part of NTF II project (implemented by ITC-UN, BASIS and DCCI with the support of CBI, Netherlands), over 30 BASIS member companies took part at different match making and business linkage events in Denmark, Netherlands and Germany. The NTF-II Project arranged number of match making meetings in those countries for member companies and over 75% members have already started working for European clients. Apart from the match making meetings, awareness programs i.e. seminars, workshops were arranged to promote Bangladesh as an outsourcing destination in these countries.

International Fairs & Exhibitions

BASIS, with the support of EPB, arranged participation of BASIS members in two international fairs in 2012. Four BASIS member companies participated in CeBIT, Hannover, Germany (March 6-10, 2012) and Six member companies participated in Gitex, Dubai (October 14-18, 2012).

2nd Bangladesh Outsourcing Conference & Positioning Bangladesh Conference

For the second consecutive year, BASIS arranged Bangladesh Outsourcing Conference on December 6, 2012. The main objective of the conference was to promote the capability of Bangladesh IT industry as an important outsourcing off-shoring destination. This year, the Outsourcing Conference was hosted during the Positioning Bangladesh Conference that was jointly organized by BASIS, DCCI (Dhaka Chamber of Commerce & Industry) and KATALYST. Twelve (12) internationally reputed speakers participated in the Outsourcing Conference in three different sessions. The conference got good coverage in print, electronic and social media.

General Awareness Campaign on IT Career and Outsourcing

BASIS has started campaign in different Universities with an aim to motivate students for taking IT as their career path. This program started with an event in Jahangir Nagar University on June 30, 2012. In this program, BASIS also took awareness initiative so that students and general people do not fall victim to different unscrupulous practices (e.g click based MLM online earning) in the name of outsourcing.

Election of Executive Council for 2012-14

Election for BASIS Executive Council for the term '2012-14 was successfully held on July 2, 2012. The election was held in a festive mode with very good turnout of voters. Out of the 414 voters, 338 casted vote. On July 4, 2012, the office bearer election was held and portfolio was distributed among the elected EC members.

Major Policy related achievements of BASIS in 2012

Tax (Income Tax & VAT) Policy Modifications

BASIS gave a number of proposals to NBR and Ministry of Finance during the preparation of The National Budget '2012-13. One of the most important proposals was to have a separate service code for VAT (Value Added Tax) for software and IT service companies. And later on, in the original finance bill, a new service code has been introduced. However, 15% VAT was imposed and BASIS continued persuasion. As a result, amendment was made to bring down the rate from 15% to 4.5% before the budget was passed. The extension of Tax Exemption facility for Software & ITES industry from 2013 to 2015 was the other big achievement of BASIS.

EEF Policy Revision to facilitate application of new companies

BASIS has been consistently pursuing with Bangladesh Bank to revise the EEF guideline so that the allocation process can be made more simplified & faster. BASIS pushed for a flexible guideline so that more software and ITES companies, particularly the new entrepreneurs, can apply for the fund. As a result, very recently, Bangladesh Bank and Ministry of Finance revised the EEF (Equity & Entrepreneurship Fund) fund allocation policy for IT projects incorporating a number of BASIS recommendations. To be mentioned here that, according to the revised policy, software/ITES companies with minimum 1 year of experience can apply (previously the requirement was 3 years) for EEF and minimum project size is BDT 20 Lakhs (previously BDT 50 lakhs). The revised evaluation policy and assessment process are more simplified and expected to help the BASIS members, both new and old, for their business growth.

Major Initiatives taken by BASIS in 2012

Tax VAT Help Desk

In August 2012, BASIS Secretariat has opened up a "Tax & VAT Help Desk" to support member companies in various tax (corporate income tax, AIT etc.) and VAT issues. Member companies have been facing difficulties with clients and tax authorities for many years in claiming exemption (or getting reduced rate) for VAT and income tax at the time of bill collection. The "Tax & VAT Help Desk" extends support to members by providing appropriate suggestions in this regard and also by providing clarification on related VAT/AIT rules and SROs.

Publication of BASIS History Book

For the first time, BASIS has initiated to publish the BASIS History book. The history book will document all the historic information and major events since the inception of BASIS 15 years back in 1997. Former BASIS President Mr. Habibullah N Karim has agreed to volunteer as the Editor of the BASIS History Book. The expected publication date of BASIS History Book is December 2013.

Policy persuasion for a Industry Friendly Mobile VAS Policy Guideline

To ensure that the mobile content companies, platform providers and application development companies get their proper share of revenue in the mobile VAS echo-system, BASIS has taken bold steps to pursue with the concerned regulatory authorities (BTRC, MoPT and MoICT) to change the existing policy framework so that the third party VAS service providers (a number of BASIS member companies are engaged in this business) get proper recognition and their respective business interest. In this connection, BASIS has jointly (with 5 other major IT associations) arranged round-tables, press conference and seminars to sensitize the issue. At the same time, BASIS has been persuading the concerned policy makers to make the relevant policy changes in favor of local VAS providers.

Policy Reform for Simplification of Foreign Exchange Rules

BASIS members often require to send money out of country for various business purposes. BASIS has taken initiatives to simplify the foreign exchange rules in this regard. BASIS is continuously persuading to increase yearly limit of online credit/debit card payment and to increase permissible item numbers. Making direct payment by banks (L/C, wire transfer etc.) for e-Delivery (non-physical import) of software products/services/licenses is a need of today. BASIS is persuading for a permission for this. Another important issue for the industry is introduction of PayPal services in Bangladesh. This will ease the problem faced by SME exporters to bring in export proceeds to local bank accounts. Good news is, PayPal senior officials have already visited Bangladesh on BASIS invitation and following persuasion by BASIS, Bangladesh Bank has already issued two orders allowing operations of international online payment gateway in the country.

Advisory Support for Member Companies to get funds

BASIS has taken a focused initiative to help its member companies to avail financing opportunities. Though there are number of currently available financing opportunities (EEF, SME loan, private venture fund) for Software and IT service companies, but it is observed that, in most cases BASIS member companies are not being able to avail the opportunity because of several internal & organizational issues. These include lack of proper documented business plan, structured financial forecasting, clear revenue/cost models, standard transactional documentations required by funding agencies etc. BASIS member companies either don't get access to the funds or the proper valuation of their existing investments/assets doesn't take place. To help member companies preparing for the process and to ensure that they get maximum valuation of their intellectual assets, BASIS has taken an initiative to provide advisory support to its members. Already an advisory committee has been formed with senior BASIS members and experts to provide advice and guidance to BASIS members for accessing available funds at favorable terms.

e-Commerce Awareness

In recent times, the domestic e-Commerce business is getting momentum in the country. A number of BASIS member companies have already engaged themselves in different e-Commerce related activities that include online shops, online payment processing services, solution providers, online marketing services etc. To respond to these new opportunities and to help the business of member companies, BASIS has taken initiatives to create mass awareness and also to work with regulators & financial institutes to address the practical problems of e-Commerce implementation in Bangladesh. As a part of this initiative, BASIS and Bangladesh Bank are going to jointly organize e-Commerce Week during January 5 to 13, 2013.

Thank you

Russell T Ahmed

Secretary General, BASIS

Events and Activities 2012

January 2012

Press Conference on BASIS Softexpo 2012

BASIS organized a pre-event press conference on BASIS Softexpo 2012 at BASIS conference room on January 17, 2012. Mr. AKM Fahim Mashroor, Senior Vice President, BASIS presided over the press conference. Activities of BASIS Standing Committees

After taking over the charge, BASIS Executive Council (2012-14) formed 16 (sixteen) different Standing Committees with a good number of potential interested members. BASIS Executive Council arranged the 1st meeting of all Standing Committees as an introductory meeting on September 15, 2012. On behalf of BASIS Executive Council, Mr. Russell T Ahmed highlighted the objectives of forming these standing committees and he urged all members of the standing committees to sit in regular intervals to achieve these objectives.

The activities of the standing Committees are described in brief below:

Standing Committee on Member Services:

Standing Committee on Member Services had two different meetings this year. The members of the committee have recommended the following to improve the member services:

- BASIS should provide TAX & VAT related legal support
- BASIS should make a template for developing a business plan
- Licensing support like Trade license, ERC etc. should provide by BASIS for members
- Online payment service should be introduced rather than submitting pay order
- BASIS should maintain an 'IDEA BOOK' to share members feedback or complain

Standing Committee on IPR, Law & Policy Regulatory Affairs

Two meetings of the Standing Committee on IPR, Law & Policy Regulatory Affairs have been held this year. The agenda of these meetings were to finalize ToR for the committee and to address IPR issues. The committee also recommended making strong relationship with the Ministry of Social Welfare and the Ministry of Industries regarding Patent, Copyright, software registration and other IPR issues. The committee also recommended for addressing Tax & VAT Policy, periodic review of National ICT Policy, pursuing BTRC for VAS Guideline and the like.

Standing Committee on eGovernance:

Standing Committee on eGovernance had three different meetings this year. The committee emphasized on the PPR issues, monitoring different procurement policies of the government bodies. The committee also recommended to ensure eGovernance managed service and to form an eGovernance cell. The committee also emphasized in organizing seminars to educate members on eGovernance initiatives of the government and how to handle it properly.

Standing committee on E-Commerce & M-Commerce:

This is the new standing committee formed to focus on the development of E-commerce & M-commerce industry of the country. Till now this committee has had two meetings this year. They have taken some major decisions regarding the e-commerce week 2013 to be held on January 5-11, 2013 and other existing problems like payment issue, distribution and the like.

Standing committee Web Content & e-Marketing

The aim of this newly formed standing committee is to strengthen BASIS web presence and to give proper direction to the BASIS members about how they can be benefited by doing the web marketing. This committee members had one meeting already and they made some recommendations about the further development of the BASIS website, Softexpo website and B2B portal.

Standing committee on Local Market (Private and Corporate) Development:

Standing committee on Local Market (Private and Corporate) Development had three meetings this year. Their main objective was to attract local buyers through arranging the sector based locally produced software exhibition and to resolve other problems regarding the pricing issues, market development etc. In addition to these, the committee is planning to arrange various workshops on complicated issues that the IT & ITES companies are facing.

Standing committee on Access to Finance

Standing committee on Access to Finance had two different meetings this year. The committee addressed issues like: Access to finance on through EEF of ICB, SHONCHALOK of IDCOL, venture capital funding of EPB and SME loans from banks and NBFIs. The committee also organized daylong workshop SME financing in collaboration with Bangladesh Bank. The committee also recommended to arrange a workshop for BASIS members to educate them on standard record keeping for financial transactions and proper accounting practices.

Standing Committee on International Market Development:

Standing Committee on International Market Development had one meeting this year to finalize the planning and preparation for BASIS participation in the GITEX Technology Week 2012, Dubai and CeBIT Hannover, Germany in March 2013.

Standing Committee on Infrastructure:

Standing Committee on Infrastructure had a meeting this year. The committee recommended to follow-up an issue relating to avail space in any BSCIC town for STP. In addition to this, the committee emphasized on expedite the process of allocating space at the Janata Tower STP and making it operationalize by February 2013. The meeting also recommended to follow-up the progress of Bangladesh Hi-Tech Park and Mohakhali Software Technology Park.

AUDITORS' REPORT TO THE MEMBERS OF BANGLADESH ASSOCIATION OF SOFTWARE & INFORMATION SERVICES

Introduction

We have audited the accompanying Financial Statements of Bangladesh Association of Software & Information Services, which comprise the Statement of Financial Position as at June 30, 2012 and the Statement Income & Expenses, Statement Receipt & Payments for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRSs), the Companies Act 1994 and other applicable laws and regulations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSAs). Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Bangladesh Association of Software & Information Services as at June 30, 2012 and its financial performance and its receipts & payments for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs) and comply with the applicable laws and regulation.

Bangladesh Association for Software & Information Services (BASIS)
Notes to the Accounts
For the year ended June 30, 2012

01. Legal form & Significant Accounting Principles:

a) Legal Status of the Association:

Bangladesh Association Of Software & Information Services (BASIS) was incorporated in Bangladesh as a association under the Companies Act 1994 dated 13th August 1998 as a non-profit making Company Limited by guarantee.

b) Nature of Activities:

The Principal objectives of the association include promoting and safeguarding interest of all members of the Association and encouraging and assisting in the balance development of the Software and Information Industries in Bangladesh.

02. Accounting Policies:

c) Accounting Convention and Basis:

The Accounts have been prepared on a going concern basis under the Historical Cost convention, which do not take into consideration the effect of inflation.

d) Fixed Assets:

Fixed assets have been stated at cost less depreciation.

e) Depreciation on Fixed Assets:

Depreciation has been charged on fixed assets under reducing balance method at the rates varying from 15% to 20% depending upon the useful life of each asset.

03. General:

Financial Statements of the Association covers one year from 1st July to 30th June consistently.

The Financial Statements include the following components

- i) Balance Sheet as at June 30, 2012.
- ii) Income & Expenditure Statement for the year ended June 30, 2012.
- iii) Receipts & Payments accounts for the year ended June 30, 2012.
- iv) Accounting Policies and Notes to the Financial Statements.
- v) Figures were rounded-off to nearest Taka.

Annual Report 2012

Minutes of the 12th AGM of BASIS

The 12th AGM of BASIS was held on Thursday, December 30, 2010 at Green View, BICC, Agargaon, Dhaka. Mr. MahboobZaman, President, BASIS presided over the meeting. The list of members present at the meeting is attached herewith separately (Annexure-A).

First of all BASIS President welcomed all members of BASIS present at the AGM and called to order the 12th Annual General Meeting of BASIS, then after the discussion was held as per the agenda.

Agenda-1: Confirmation of the Minutes of 11th AGM held on December 26, 2009

BASIS President placed the Minutes of the 11th AGM before the members for confirmation. As the minutes found well-recorded, Mr. Rafiqul Islam Rowly, CSL Software Resources Ltd. proposed and Mr. M. KhalilurRahman, SureSoft Technology Ltd. seconded and the minutes of the 11th AGM and the Minutes was confirmed and adopted unanimously.

Agenda-2: Consideration and adoption of the Annual Report 2010

Mr. Forkan Bin Quasem, Secretary General of BASIS presented the Annual Report 2010. In his speech, he highlighted major activities and initiatives of BASIS within the country and beyond during this year. His speech includes the Softexpo, PPP awareness, participation in international expo, BASIS Secretariat strengthening through implementation of BITMAP-II project, Member categorization, Branding Bangladesh NEXT, Training program, IT Infrastructure etc. He concluded his report with Gartner's recent report mentioning Bangladesh is one of the Top 30 IT Outsourcing destinations and founding BWIT as a new organization. He also added that the detail activities are already published in the Annual Report 2010.

Then after, Mr. President opened the floor for comments, suggestion, advice and guideline from the members.

Mr. RiazHaider, Megabyte Trade Ltd. suggested to keep the membership in alphabetic order in the annual report. He also suggested BASIS EC to expedite the process of development work so that it can be allocated for the members.

Mr. Ali Akbar Khan, Star Computers greeted newly elected Executive Council. He urged EC to motivate the Govt. to address the IT Infrastructure issues mentioned in the Gartner's Report which needs to be improved.

Mr. Sheikh Abu Reza, ATI Limited asked about the quorum of the AGM. As presently members are 344, members are being increased, so the minimum number of members for quorum should be increased, as 10 is very few. In addition to the activity report, the list of new members should be included in the Annual Report.

Mr. BirenAdhikary, Officextracts mentioned that to change the quorum, an EGM may be required. Approval of DTO will also be required for this kind amendment.

Mr. Rafiqul Islam Rowly, CSL Software Ltd. proposed to imprint the Minutes of last AGM like the minutes which we adopted in the last AGM should be presented as printed format along with the Annual Report.

Decisions made in the Standing Committees can be shared with the members, so that the members will be informed about it.

When BASIS President goes outside the country, he usually informs members which is really appreciated.

Mr. TIM NurulKabir, CEO of Spinnovation Ltd. thanked EC for presenting Report. He mentioned that, in addition to the regular activities some significant achievements and challenges can be projected with

statistics. He also mentioned that, there should have some indicators by which we can understand how much development of the industry has been taken place. He also suggested to include the standing committee initiatives such as number of meetings, recommendations etc.

BASIS President on behalf of AGM, also welcomed Mr. TIM NurulKabir to become Sr. Vice President of DCCI recently. Sheikh Abdul Aziz, Leadsoft Corporation mentioned that, Tk. 14 lac has been lost which is not properly reflected in the report. Recently, Commerce Secretary said that, to develop ICT industry, we need to bring experts from India, this should be clarified in consultation with him. BASIS is established mainly for industry development. We should focus on the local market development rather export. If we can do better in the local market, then automatically export market will be expanded. He also added that, migration of software professionals is another problem. The leading international companies are hiring software professional without notifying us, this should be addressed as well.

Mr. Habibullah N Karim, Former President said that, if we see the report and content of the last few AGMs, we see that the instrumental development may be happened but it needs structural development for external houses.

Mr. Rafiqul Islam Rowly, CSL Software said that, we have to play a collective role to develop local market. To discuss our problems and prospects, BASIS may organize monthly meeting of members regularly.

Mr. SarwarAlam, Former President mentioned that, we have to be very careful about the local market, so that no one can create such hive that, only Indian companies are capable to develop our IT sector. We have to prove that, we are capable enough to develop our industry. He also added that, the issues which have been identified as poor in the Gartner's report should be improved as very good. We have to take up this issue to the government to make them convinced.

It was also mentioned that, many companies are facing problems in collection of payment because of the terms and conditions implied by the government.

Mr. ShoebMasud, Former Secretary General, BASIS suggested to compile the monthly activity report in every month and the draft report a bit earlier so that, it could be easy to print Annual Report in time and taking less stress at the eleventh hour. He also appraised the newly revamped website and proposed to update it regularly. Tax exemption period will be expiring on June 2011, which may be extended further.

Shah ImraulKaesh, Technobd Web Solutions, asked about the recent FE circular of Bangladesh Bank relating to foreign procurement up to USD 10,000. He wanted to know, when it would come into effect. He also mentioned that, local e-Commerce activities have been started. If BASIS members face any difficulties, from where they can get assistance and whether BASIS is getting ready for it.

Mr. AKM Ahmedul Islam, Servicengine Ltd. said that, we need good bandwidth, but we did not see any significant initiatives from BASIS in the last one year in this regard. Redundancy is very important and 2nd submarine cable connection is now essential. We frequently face the problem of disconnection. He also advised to take some initiatives for ITES companies as well.

Mr. ShafquatHaider, Ciproco Ltd. proposed that according Gartner's Report, we have four areas identified as 'poor' must be improved to take our industry forward. We all know the effort needed to overcome the situation, now we have to work for it.

Mr. Syed MamnunQuader, Southtech Limited highlighted that, we have a perception problem. We usually think that the foreign companies are superior. If we can increase our export, we can tell others that, we are doing export competing with big companies, then day-by-day our perception would be changed.

Dr. AsgarAli, Hosting Help24 proposed to include BASIS representative mandatorily in the IT & ITES tender committee of the government to ensure local company participation.

Annual Report 2012

Mr. Rashed Kamal, Databiz Software Ltd. noticed that, the design and getup of the annual report is excellent, but some important events like networking session at UKhave been missed. He also appreciated the BASIS initiative to collect member categorization form from the members. He also proposed to give the status of the categorization initiative in the annual report. This is may be for the first time, we saw the structured BASIS Secretariat which is very good.

Mr. Manjur Mahmud, Datasoft Systems Bangladesh Ltd. mentioned that, if we see the BASIS website, 80-90% members are from software category, only a few members have shown them as ITES category. He suggested to aware of the members so that they can be more interested to submit the duly filled-in categorization form.

After these comments, BASIS members list has been printed according to the membership number, but we will think of alphabetic order in future. Janata Tower is still in policy level. It will take time to allocate for members after renovating it.

We will surely address the Gartner's identified issues include Infrastructure, IP security, Language as it is a big responsibility for us to keep it up. To address Infrastructure, we need to ensure submarine cable, STP etc. In this regard, we are going to arrange Press Conference in presence of ICT State Minister. We have also arranged a meeting at the Ministry of Science & ICT with all concerned.

There is a gap between perception and reality about local market and export market. IT is not only for export, we have been doing very well in local market as well. We would like to give emphasisequally on both the areas. We have strengthened our secretariat but it is still need to be improved with more human resources. Sometimes contribution and time from some senior members will be required to pursue the govt. policy makers.

We will try to change the format of presenting annual report and minutes. We are also agreed that, the report should be reached to members at least 15 days before, so that everyone can have a look into it to comment on that.

He also mentioned that, some of our companies doing very well, even their products and services are being used by Indian companies. Regard HR compliance, we have to execute a framework of "No Objection Certificate" for recruiting HR as mandatory.

We may dedicate one day for reviewing Gartners' report during BASIS Softexpo 2011. Representation may be asked to Gartner to that. We also believe that, without developing local market, export market would not be flourished.

Monthly meeting could be a very frequent, instead of that; we have planned to arrange Quarterly Meeting of BASIS Members. We have already arranged 1st Quarterly meeting and fixed the date for 2nd and 3rd AGM as well. He also added that, we have also thought about contributing dedicated time slot for the BASIS Secretariat by rotation to ensure implementation of decisions of the AGM and EC meetings. He also emphasized on the study on the local market and the govt. procurement mechanism to take appropriate initiative.

BASIS president also mentioned that, when a Govt. set up a vision for Digital Bangladesh by 2021, then many application software become inevitable. Then a good opportunity may be created. As we have strong capability in application software. He also added that, CPTU and IMED has responded positively in favour of local IT industry. We have to make collective and aggressive argument to the govt. in making local market friendly procurement policy so that the IT industry can be benefited.

To increase the export earning, we cannot increase it from 35 Million to 2 billion by changing the digit only. We have already taken initiative to address Freelancers as we know that a huge number of Freelancers are working round the year. If we can add their earning with the export earning, the figure will surely be changed positively.

Regarding Tax Holiday, as the timeline is being ended, it should be extended further which is also an important concern of BASIS.

Regarding Credit Card for international procurement, BASIS president mentioned that, after a series of discussion with some banks, finally BRAC Bank has agreed to issue BASIS-BRAC Bank Co-branded credit card with a limit of USD 10,000 per year. The launching of the card will be arranged soon.

In response to the question regarding ITES sector, BASIS President responded that, BASIS is working for both software and ITES. In some cases, ITES could be more potential than software. Regarding redundancy, he mentioned that, Govt. planning to go for either PPP or Private initiative. Establishment of a Terrestrial connection is also in action. We will take forward this issue to the Ministry as also a recommendation of Gartner's report. He also mentioned that, the rate of internet bandwidth has been reduced further.

He urged members to submit membership categorization so that we can print the membership Catalogue by March 2011. He also requested all members to give suggestions and to point out the lacking so that we can address those issues in time. Finally he concluded his remarks on the discussion on the annual report requesting members to work together to build-up the industry.

With all these comments and inclusion, BASIS President urged members present to adopt the report. Mr. AKM Ahmedul Islam, ServicEngine Ltd. proposed and KhalilurRahman, Suresoft Ltd. seconded to adopt the Annual Report 2010 and then the Annual Report 2010 was adopted unanimously.

Agenda-3: Consideration and Adoption of the Accounts of the Association with Auditor's Report for the year 2009-2010

BASIS President requested BASIS Treasurer to present the accounts and auditor's report. Mr. Syed Almas Kabir, Treasurer, BASIS presented a brief Financial Report and balance sheet, income statement, expenditure for the year 2010-2011 which are already included in the Auditors Report. He also presented the year to year comparison. Our income has been increased significantly.

Mr. TIM NurulKabir, Spinnovation Ltd. enquired about the year-to-year detailed schedule of the account receivables. He mentioned that the amount is as same as previous years. Footnotes with brief explanation should be there to clarify this. He also added that, in the income statement, there is an expenditure deficit amounting Tk. 34,000, which was not seen earlier.

In response to Mr. NurulKabir, BASIS Treasurer clarified that there are eight items which needs to be written off. But as per the discussion of the meeting, write-off cannot be done without having an agenda on this specific issue. So "written off bad debts" has to be an agenda in the next AGM, and then all these could be written off.

In response to another question, BASIS Treasurer also mentioned that, foreign travel and accommodation is always borne by the individuals not from BASIS fund. He also added that, we will be more careful in future, so that this kind of deficit is not reflected in the financial report in future. He also highlighted that, our general income has been increased significantly.

Annual Report 2012

Mr. Shafquat Haider, Ciproco Computers Ltd. suggested that the companies, who have already a significant amount of subscriptions due, should be cancelled instead of showing receivable every year. In response to this issue, Mr. Almas Kabir mentioned that, membership of these ten companies have already been cancelled in April 3, 2008 at the 125th EC Meeting but it was imprinted in the previous year's annual report and historically it has been repeated once again. This amount will also be written off as well. Cancellation of 37 other members' membership is now under processing.

Mr. Forkan Bin Quasem, Secretary General added that, other issues like participation in the BASIS Softexpo etc. is being done by negotiation even in the last moment. But the membership cancellation cannot be resolved through negotiation only, as there are some rules and regulations for this. He also recommended to writing off not only this kind of receivables, but also some payables as well.

Mr. Sheikh Abdul Aziz, Leadsoft Bangladesh Ltd. mentioned that, Hawlader Yunus is a renowned CA firm but they have not done this job properly. There must have some notes which are absent here. He also asked whether they are going to be appointed for the next year or not. BASIS Treasurer replied that, BASIS has not invited any quotation from them this year as BASIS would like to appoint another firm for the next year.

After the discussion, in response to the request of BASIS President, Sheikh Abdul Aziz, Leadsoft Bangladesh Ltd. proposed and Mr. TIM Nurul Kabir, Spinnovation Ltd. seconded to adopt the Accounts of the Association with Auditors Report for the year 2009-2010 and were adopted unanimously.

Agenda-4: Appointment and fixation of remuneration of Auditor for 2010-2011

Mr. Syed Almas Kabir, Treasurer, BASIS informed that four quotations from the four renowned CA firms have been collected and evaluated. After evaluation, EC is recommending ACNABIN & CO. as external auditor and they may be with a remuneration of Tk. 25,000 (taka twenty thousand) only. Mr. Treasurer also mentioned that, as the ICT Incubator accounts is not externally audited, it has not been included in the financial report, it would be included in the next year's report.

Shaikh Abdul Aziz, LeadSoft Bangladesh Ltd. proposed and Syed Mamnun Quader seconded to appoint ACNABIN & CO. as external auditor for the year 2010-2011 with a remuneration of Tk. 25,000 (taka twenty thousand) only.

Agenda-5: Miscellaneous

It was discussed in the meeting that, industry survey has not been conducted so far, for which Commerce Ministry gave a fund a couple of years back through IBPC. It was recommended that, we may conduct the intensive industry survey with the help of IBPC, to make the Ministry understand about the recent trends of the industry.

Mr. Fahim Mashroor, Sr. Vice President informed that, many organizations are still using the data of the BASIS survey conducted 4-5 years back. He also requested all to submit the member categorization form as soon as possible which will help to generate a survey report.

Regarding the A2I-BASIS joint initiative, Ms. Rezwana Khan, Star Computers suggested to inform all BASIS members well in advance. She also mentioned that the evaluation criteria was not proper, for which many competent members could not participate in the bidding process.

BASIS President clarified her comments with the background information and justification of A2I-BASIS initiative. He also added that, communication with the Ministries have been become easy through jointly working with A2I

In response to a question about appointing Secretary, BASIS President informed that, we also feel that, a full-flagged Secretary is required. We have short listed candidates, from which we may appoint a Secretary soon.

Regarding appointing a CEO, Mr. President said that it is a constitutional obligation. We may have an EGM to find a solution.

BASIS President also thanked all Staff of the BASIS Secretariat for their whole-hearted effort and cooperation to manage the AGM.

With all comments, he urged all members to work together for the betterment of the industry. He also requested them to attend BASIS activities on regular intervals.

As there was no other agenda to discuss, the AGM was ended with vote of thanks to and from the chair.

(MahboobZaman)
President, BASIS
